All the ECCMID studies featuring Copan products

15 April

P0969 | 12:00 - 13:30 | Poster Area

The influence of maternal HIV status on the early neonatal microbiome.

Carolyn McGann et al.

P0979 | 12:00 - 13:30 | Poster Area

Prognostic and predictive role of gut microbiota in advanced mesothelioma patients: a feasibility exploratory pilot study.

Elisa Bona et al.

P0745 | 12:00 - 13:30 | Poster Area

A pre and post sanitization environmental sampling to evaluate the persistence of multi-drug resistant strains after colonized patient discharge

Annarita Mazzariol et al.

P0921 | 12:00 - 13:30 | Poster Area

HPV Self Sampling Breaking Barriers in Cervical Cancer Screening.

Latha Balasubramani et al.

HALL N | 12:00 | Oral Presentation

Artificial Intelligence software for use in automatic sorting of cultures in the laboratory.

Caitlin Murphy

16 April

P1826 | 12:00 - 13:30 | Poster Area

Exploring the potential association between olfactory functions and the taxonomic composition of nasal microbiome.

Donatella Placidi et al.

P1833 | 12:00 - 13:30 | Poster Area

Use of eNAT® system to store fecal samples for metaproteomic analysis of the gut microbiota.

Alessandro Tanca et al.

P1813 | 12:00 - 13:30 | Poster Area

Optimization of sample collection and storage for human gut microbiota studies.

Anna Franzoni et al.

P1829 | 12:00 - 13:30 | Poster Area

Gut microbiota components predict response to cyclin-dependent kinase (CDK)4/6-inhibitors in metastatic breast cancer (MBC): a prospective cross-sectional exploratory study.

Valerio Iebba et al.

P1589 | 12:00 - 13:30 | Poster Area

From streaking to antimicrobial susceptibility testing: the automatic workflow in a cutting-edge microbiology lab.

Maxime Sansot et al.

Copan

innovating together

All the ECCMID studies featuring Copan products

16 April

P1830 | 12:00 - 13:30 | Poster Area

Optimal devices for collection, storage, and processing of skin sample for microbiome analysis.

Clémence Robert et al.

HALL G | 12:15 - 13:15 | Lunch Symposium

Sample collection: needs, challenges, and future

ECCMID Chair - Dr. Kate Templeton
Chair - Prof. Christoph D. Spinner
Prof. Marek Smieja
Prof. Donatella Placidi
Prof. Gerard Cangelosi

17 April

HALL E | 12:15 - 13:15 | Lunch Symposium

BacteriologIA: Artificial Intelligence applied to bacteriology

ECCMID Chair - Dr. Derek Macfadden
Chair - Prof. Adrian Egli
Dr. Oliver Nolte
Dr. Simone Ambretti
Dr. Antony Croxatto
Dr. Rafael Cantón
Dr. Astrid Muyldermans

P2840 | 12:00 - 13:30 | Poster Area

Stability of Universal Transport Media to maintain viral RNA for Influenza A, B, and RSV at both refrigerated and room temperatures.

Christa Fierros et al.

18 April

P3497 | 12:00-13:30 | Poster Area

Mapping the peruvian vaginal microbiota and linking it to increased awareness and capacity building.

Sandra Condori et al.
